

HGMIX

 **HELIOS TINTING**

HGMIX is a modern mixing system that offers unlimited colour possibilities, complementing the existing range of ready-mixed shades. The system includes thousands of colour shades, available for most Helios brand topcoats at point of sale equipped with the

appropriate hardware and software support. The **HGMIX** system consists of 16 water-based colorants and 8 solvent-based colorants, formulated with environmentally friendly pigments and a low content of volatile organic compound.
